SKILLS

- | | | |
|--------------------------------|------------------------------|----------------|
| • Data Structures & Algorithms | • Java J2EE | • HTML CSS |
| • OOPs | • JavaScript- React, Node js | • git GitHub |
| • Python | • MySQL, SQL Server | • C C++ |

PROJECTS

E-commerce Application:

Developed a full-stack e-commerce application with features such as user authentication, product catalog, shopping cart, order management, and payment integration using Stripe. Utilized React.js, HTML5, and CSS3 for the frontend, Node.js and Express.js for the backend, and MongoDB for the database. Demonstrated skills in API design, secure payment processing, and agile development.

Student Management System:

Created a comprehensive student management system for my college, featuring functionalities such as student registration, course enrollment, grade tracking, and attendance monitoring. Utilized HTML, CSS, and JavaScript for the frontend and MySQL for database management. Demonstrated skills in database design, user interface development, and system integration to streamline administrative processes and improve data accuracy.
